Drilor

Fine grain and pasture seeder

CRUCIANELLI

Drilor

Fine grain and pasture seeder

CRUCIANELLI

State-of-the-art precision seeding technology

- **Greater autonomy**
  The air cart can accommodate 9.500 liters worth of seeds, or 60% seeds (5.700 lts) and 40% fertilizer (3.800 lts).

- **Reduced downtime**
  Extended working width. Its folding system, commanded by a single operator from the tractor cab, allows the seeder to fold from a working width of 10 m to a width of just 3.9 m, ideal for transportation. Reduced turning radius and minimum curb line.

- **Convenient and safe transportation**
  Versatility and maneuverability. Its 2.8 m axle track and single tow bar to the tractor allow fast road transportation. Requires a single trailer for transportation and avoids disassembly.

- **Independent and uniform distribution**
  Seeds and fertilizers travel through separated conduits, and each chevron feeds only two rows, which guarantees its steady flow. This one-of-a-kind seeder features an optional alfalfa seed box (accessory).

Specifications

Models (working width)	8.5 m	10 m
No. of rows / Spacing (cm)	47 / 17.5	55 / 17
	41 / 20	49 / 20
	31 / 26.6	37 / 26.6
	24 / 35	28 / 35
	21 / 40	25 / 40
	16 / 52.5	19 / 52.5
	12 / 701	14 / 70
Transportation width on trailer (m)	3.9	
Transportation width on the road (m)	4.2	
Road clearance during transportation (mm)	390	
Air cart capacity, seeds only (lts)	9000	
Air cart capacity, seeds / fertilizer (lts)	5700 / 3800	
Approx. weight for max. rows (kg)	1700	1200
Tire size	23.1 / 26 - 400 / 60x15.5" - 400 / 55x22.5"	
Approx. power for max. rows (HP)	200	240
Pressure (kg / cm2) / Flow rate (lts / min)	160 - 180 / 120
